#### INTRODUCTION TO THE VINTAGE

2018 was a year marked by a spell of frost in April, and followed in quick succession by an episode of hail on the 26th of May. The year was also marked by heavy downpours in spring before getting better conditions for the flowering. Despite the attack of mildew at the beginning of summer in certain parcels of red vines, the sunny period from July through the beginning of October truly saved the vintage and guaranteed a good ripening of the grapes.

The reds required a lot of attention at both stages of picking and sorting: those parcels affected by mildew. The meticulousness of our vineyard pickers, plus the effectiveness of our talented cellar team and our technical ability helped maintain healthy and ripe grapes.
